

Link the left hand word with the right hand description

Compost	Making one product into another.
Recycling	Using less of something so there is less rubbish produced overall.
Reuse	What is produced after green garden waste has broken down by natural processes.
Reduce	A place where all of the waste which is not recycled or reused goes.
Waste	Where your recycling is collected from your home. You have to make sure your recycling box is near the pavement.
Kerbside collection	All of the things which you throw away, reuse or recycle.
Landfill	Using a product again. You might use it for the same thing or something else.
